

Angela Van Daal publication list

- J. Voisey, M del C Gomez-Cabrera, DJ Smit, JH Leonard, RA Sturm and **A van Daal** (2006) A polymorphism in the *agouti signalling protein (ASIP)* is associated with decreased levels of mRNA Pigment Cell Res **19(3)** 226-231
- Doecke, JD, CJ Day, AS Stephens, SL Carter, **A van Daal**, MA Kotowicz, GC Nicholson, NA Morrison (2006) Association of functionally different RUNX2 P2 promoter alleles with BMD. J Bone Miner Res. 21(2):265-73.
- Carroll L, Voisey J, **A van Daal** (2005) Gene polymorphisms and their effects in the melanocortin system. Peptides. 2005 Jun 22
- Coussens AK, **A van Daal** (2005) Linkage disequilibrium analysis identifies an FGFR1 haplotype-tag SNP associated with normal variation in craniofacial shape. Genomics. **85(5)** 563-73.
- Graf J, R Hodgson and **A van Daal** (2005) Single Nucleotide Polymorphisms in the MATP Gene are Associated with Normal Human Pigmentation Variation Hum Mutat **25(3)** 278-84
- Lawford B, R Young, C Swagell, M Barnes, S Burton, W Ward, K Heslop, S Shadforth, **A van Daal**, C P Morris (2005) The C/C genotype of the C957T polymorphism of the dopamine D2 receptor (DRD2) is associated with schizophrenia. Schizophrenia Research **73(1)** 31-7.
- Voisey J, L Carroll and A van Daal (2004) Animal Models of Obesity. Clinics in Dermatology **22(4)** 345-9.
- Voisey J, L Carroll and **A van Daal** (2003) Melanocortins and their receptors and antagonists Current Drug Targets **4(7)** 586-597
- Voisey J, G Kelly and **A van Daal** (2003) Agouti Signal Protein Regulation in Human Melanoma Cells. Pigment Cell Res **16** 65-71
- Voisey J and **A van Daal** (2002) Body Mass Index-related Human Adipocyte Agouti Expression Is Sex-specific but Not Depot-specific. Obesity Research **10** 447-452
- Inman-Bamber J, C Wan, T Gardham, R Vohra, **A van Daal** and P Timms (2002) Novel PCR-EIA method for the detection of *Chlamydia pneumoniae* in respiratory specimens. Molecular and Cellular Probes **16(1)** 57-61
- Howard C, **A van Daal** and P Giffard (2002) Molecular detection and characterisation of SHV derived extended spectrum β -lactamases in *Klebsiella pneumoniae* causing nosocomial infection. Antimicrobial Agents and Chemotherapy **46** 659-664
- Voisey J and **A van Daal** (2002) Review - The Role of Agouti Signal Protein in Humans OR - Agouti: From Mouse to Man, from Skin to Fat. Pigment Cell Res **15** 10-18.
- Turner M, S Penning, M Somodevilla-Torres, V Hyland, R Harris, P Morris and **A van Daal** (2001) A Single-tube Method for SNP Detection. Clin Chem **47** 1384-9
- Somodevilla-Torres M, P Timms, R Harris, P Morris and **A van Daal** (2001) Solid-phase Amplification and Detection: A Single-tube Method for Detection of Infectious Agents. Molecular Diagnostics **6** 131-6
- Voisey J, G Hafner, CP Morris, **A van Daal** and P Giffard (2001) Interrogation of multimeric DNA amplification products by competitive primer extension using *Bst* DNA polymerase (large fragment). Biotechniques **31** 1122-1129

Voisey J, NF Box and **A van Daal** (2001) A Polymorphism Study of the Human Agouti Gene and Its Association with MC1R. *Pigment Cell Res* **14** 264-267.

van Daal A (2000) Review of Chromatin Structure and Function, ed. Alan Wolffe. *Today's Life Science* **12** 51

van Daal A (1996) DNA Profiling in forensic science. *Australian Lawyer* Volume 1

Finch J, R Hope and **A van Daal** (1996) Human sex determination using multiplex polymerase chain reaction (PCR). *Sci Justice* **36** 93-95.

van Daal A (1995) DNA Profiling. *National Forensic Summit Proceedings* 59-72

van Daal A (1994) DNA profiling in forensic science and parentage testing. *Australasian Biotechnology* **4** 92-96.

van Daal A (1994) PCR on trial in Australia. *Fifth International Symposium on Human Identification* 69-72.

Kijas J, JCS Fowler and **A van Daal** (1994) PCR amplification of alleles at locus D17S5: detection of new and rare long length alleles by oligo probing in a survey of Australian populations. *Human Biology* **66** 329-337.

van Daal A and SCR Elgin (1992) A histone H2A variant, H2AvD, is essential in *Drosophila melanogaster*. *Molecular Biology of the Cell* **3** 593-602.

Fretzin S, BD Allan, **A van Daal** and SCR Elgin (1991) A *Drosophila melanogaster* H3.3 cDNA encodes a histone variant identical with the vertebrate H3.3. *Gene* **107** 341-342.

van Daal A, E White, SCR Elgin and MA Gorovsky (1990) Conservation of intron position indicates separation of major and variant H2As is an early event in the evolution of eukaryotes. *Journal of Molecular Evolution* **30** 449-455.

van Daal A, DW Cooper and P Molloy (1989) A marsupial phosphoglycerate kinase (PGK) pseudogene. *Genomics* **5** 264-269.

van Daal A, E White, MA Gorovsky and SCR Elgin (1988) *Drosophila* has a single copy of the gene encoding a highly conserved histone H2A variant of the H2A.F/Z type. *Nucleic Acids Research* **16** 7487-7497

Douglas TJ, **A van Daal**, DB Keech and L Paleg (1981) Proline, betaine and other organic solutes protect enzymes against heat inactivation. *Aust J Plant Physiology* **8** 107-114.
