PSYCHOLOGY OF INDIVIDUAL DIFFERENCES

Four Volume Set

Edited by

Gregory J Boyle *Bond University, Queensland*
and Don H Saklofske *University of Saskatchewan*

This collection provides a comprehensive up-to-date synthesis of some of the most significant publications in the psychology of individual differences field over the past two decades. It contains benchmark readings, including highly cited empirical articles, review articles with an emphasis on critical review articles as well some book chapters that have had great impact in terms of presenting research findings and influencing the key debates in the field. There is a particular emphasis on recent key publications to complement older classic works, an overall integration of this expansive field and is thoroughly international in focus.

In addition to the 80 key original publications included in the collection, Volume One opens with an introductory editorial essay by the Editors setting out the rationale behind the selections, and providing an illuminating discussion of the development of Individual Differences and its theoretical, empirical, and applied foundations.

Other forthcoming major works in this series:

- **Child Development** (four-volumes)
- **Individual Differences** (four-volumes)
- **Cognitive Psychology I** (four-volumes)
- **Cognitive Psychology II** (four-volumes)

SAGE Benchmarks in Psychology series • Volume 2
December 2003 • 1664 pages
Cloth (0-7619-4409-5) • £475.00

Coverage in this Major Work:

Volume 1 - covers the role of individual differences in cognitive/intellectual abilities

Volume 2 - covers theories pertaining to normal personality structure along with associated measurement instruments

Volume 3 covers papers published on cognitive, emotional and motivational influences on the area of individual differences

Volume 4 covers clinical and applied research - including papers in the huge area of personality disorders and assessment

This 4-volume reference set will make an invaluable addition to any academic library with a interest in and/or existing collection in individual differences/personality. Given its diverse yet coherent organization, it ought to provide an excellent supplement on relevant courses where students need to engage with the provocative ideas that have made this field both lively and fascinating.

Series Brief:

Sage Benchmarks in Psychology brings together the most influential and field-defining articles, both classical and contemporary, in each of the sub-disciplines of psychological science presented as a series of four-volume major works.

Each four-volume set represents a collection of the published works from leading international scholars and academics throughout the world, collated from the foremost journals in each field and brought together by an Editor or Editorial team of renowned international stature. A full introduction is offered by the Editor(s) of each set, presenting a rationale for the selection of articles, an overview of the field, the discipline's past, present and likely future drawing upon the articles selected in each volume as signposts for the reader.

Psychological Science has evolved enormously throughout the latter half of the twentieth century. It is therefore vital that a solid academic reference is available for university libraries which presents the outstanding work and research in each sub-discipline of the field. This series should present the 'gold standard' for university libraries throughout the world with an existing collection or interest in psychological reference works.

Sage Benchmarks in Psychology should allow scholars, researchers and students to be more effectively informed of the main developments, while also setting the tone for future research in their chosen area of psychological science.

Volume One

Individual Differences

- **A R Jensen** Process Differences and Individual Differences in Some Cognitive Tasks
- **J H Kranzler and A R Jensen** Inspection Time and Intelligence: A Meta-Analysis
- **J H Kranzler and A R Jensen** The Nature of Psychometric-G: Unitary Process or a Number of Independent Processes
- **J L Horn and J J McArdle** A Practical and Theoretical Guide to Measurement Invariance in Aging Research
- **H J Eysenck** Creativity and Personality
- **P Satz** Brain Reserve Capacity on Symptom Onset after Brain Injury: A Formulation and Review of the Evidence for Threshold Theory
- **L Stankov, G J Boyle and R B Cattell** Models and Paradigms in Personality and Intelligence Research
- **R J Sternberg et al** Testing Commonsense
- **U Neisser et al** Intelligence: Knowns and Unknowns
- **C P Benbow and J C Stanley** Inequity in Equity: How 'Equity' Can Lead to Inequity for High-Potential Students
- **H Stumpf and J C Stanley** Gender-Related Differences on the College Board's Advanced Placement and Achievement Tests
- **L S Gottfredson** Mainstream Science on Intelligence: An Editorial with 52 Signatories, History and Bibliography
- **L S Gottfredson** Why g Matters: The Complexity of Everyday Life
- **D Halpern** Sex Differences in Intelligence
- **L Stankov and R D Roberts** Mental Speed Is Not the 'Basic' Process of Intelligence
- **J C Stanley** Varieties of Intellectual Talent
- **T J Bouchard** Genetic and Environmental Influences on Adult Intelligence and Special Mental Abilities
- **I J Deary et al** The Stability of Individual Differences in Mental Ability from Childhood to Old Age: Follow-Up of the 1932 Scottish Mental Survey
- **C Boake** From the Binet-Simon to the Wechsler-Bellevue: Tracing the History of Intelligence Testing
- **A Raine et al** Stimulation-Seeking and Intelligence: A Prospective Longitudinal Study

Volume Two

Personality

- **H J Eysenck** Cattell and the Theory of Personality
- **S E Krug and E F Johns** A Large Scale Cross-Validation of Second-Order Personality Structure Defined by the 16PF
- **O P John, A Angleitner and F Ostendorf** The Lexical Approach to Personality: An Historical Review of the Trait Taxonomic Research
- **B Mershon and R L Gorsuch** Number of Factors in the Personality Sphere: Does Increase in Factors Increase Predictability in Real-Life Criteria?
- **R R McCrae and P T Costa Jr** The Structure of Interpersonal Traits: Wiggin's Circumplex and the Five-Factor Model
- **J M Digman** Personality Structure: Emergence of the Five-Factor Model
- **M Zuckerman** The Psychophysiology of Sensation-Seeking
- **H J Eysenck** Dimensions of Personality: 16, 5, 3?: Criteria for a Taxonomic Paradigm
- **H J Eysenck** Four Ways Five Factors Are Not Basic
- **D P McAdams** The Five-Factor Model in Personality: A Critical Appraisal
- **A T Church and P J Burke** Exploratory and Confirmatory Tests of the Big Five and Tellegen's Three- and Four-Dimensional Models

- **D H Saklofske and H J Eysenck** Extraversion-Introversion
- **J Block** A Contrarian View of the Five-Factor Approach of Personality Description
- **G J Boyle, L Stankov and R B Cattell** Measurement and Statistical Models in the Study of Personality and Intelligence
- **W Mischel and Y Shoda** A Cognitive-Affective System Theory of Personality: Reconceptualizing Situations, Dispositions, Dynamics and Invariance in Personality Structure
- **R J Schneider, L M Hough and M D Dunnette** Broad-sided by Broad Traits: How to Sink Science in Five Dimensions or Less
- **S M Hofer, J L Horn and H W Eber** A Robust Five-Factor Structure of the 16PF: Strong Evidence from Independent Rotation and Confirmatory Factorial Invariance Procedures
- **K M DeNeve and H Cooper** The Happy Personality: A Meta-Analysis of 137 Personality Traits and Subjective Well-Being
- **S V Paunonen and D N Jackson** What Is beyond the Big Five? Plenty
- **J Block** Millennial Contrarianism: The Five-Factor Approach to Personality Description Five Years Later

Volume Three

State-Trait/Dynamic Traits/Conative

- **E R Hilgard** The Trilogy of Mind: Cognition, Affection and Conation
- **G J Boyle** Critical Review of State-Trait Curiosity Test Development
- **P Salovey and J D Mayer** Emotional Intelligence
- **D P Green, S L Goldman and P Salovey** Measurement Error Masks Bipolarity in Affect Ratings
- **J T Cacioppo et al** Dispositional Differences in Cognitive Motivation: The Life and Times of Individuals Varying in Need for Cognition
- **S J Messick** Bridging Cognition and Personality in Education: The Role of Style in Performance and Development
- **P L Ackerman and E D Heggestad** Intelligence, Personality and Interests: Evidence for Overlapping Traits
- **M Davies, L Stankov and R D Roberts** Emotional Intelligence: In Search of an Elusive Construct
- **N Iwata et al** The Japanese Adaptation of the STAI for Y in Japanese Working Adults: The Presence or Absence of Anxiety
- **G Mathews et al** Personality, Self-Regulations and Adaptation
- **F G Ashby, A M Isen and A U Turken** A Neuropsychological Theory of Positive Affect and Its Influence on Cognition
- **M Zuckerman et al** Where Do Motivational and Emotional Traits Fit within Three-Factor Models of Personality?
- **D Lubinski and C P Benbow** States of Excellence
- **A Mehranian** Beyond IQ: Broad-Based Measurement of Individual Success Potential or 'Emotional Intelligence'
- **R M Ryan and E L Deci** Self-Determination Theory and the Facilitation of Intrinsic Motivation, Social Development and Well-Being
- **P Salovey et al** Emotional States and Physical Health
- **L Corno and R E Snow** Conative Individual Differences in Learning
- **S Lyubomirsky** Why Are Some People Happier Than Others? The Role of Cognitive and Motivational Processes in Well-Being
- **R D Roberts, M Zeidner and G Mathews** Does Emotional Intelligence Meet Traditional Standards for an Intelligence? Some Data and Conclusions
- **R B Cattell, G J Boyle and D Chant** Enriched Behavioral Prediction Equation and Its Impact on Structured Learning and the Dynamic Calculus
